Why You Should Attend PetroSync's Training?

To ensure that all objectives of the course matches your needs, all PetroSync programs are developed after intensive and extensive research within the industry. PetroSync programs focus on your immediate working issues to ensure that you are able to apply and deliver immediate results in real work situations. Application and implementation of industry knowledge and experience are the drivers for our course design not theoretical academic lectures. PetroSync training focuses on practical interactive learning tools and techniques including case studies, group discussions, scenarios, simulations, practical exercises and knowledge assessments during the course. Invest a small amount of your time to prepare before attending the course to ensure maximum learning. PetroSync follows a rigorous selection process to ensure that all expert trainers have first-hand, up-to-date and practical knowledge and are leaders of their respective industrial discipline.

Training Schedule

Mechanical, Corrosion, Maintenance and Reliability Engineering

Event Name	Date	Location	Price
ASME Section I - Power Boilers	4 - 6 Feb	Kuala Lumpur, MY	USD 3,195
ASME B31.3 - Process Piping Code Design Requirements	9 - 13 Feb	Kuala Lumpur, MY	USD 3,450
API 570 - Piping Inspector Course	9 - 13 Feb	Kuala Lumpur, MY	USD 3,450
Certified Maintenance and Reliability Professional (CMRP)	9 - 13 Mar	Bangkok, TH	USD 3,595
ISO 55000 - Asset Management International Standard	16 - 18 Mar	Bangkok, TH	USD 3,195
API 510 - Pressure Vessel Inspector Course	6 - 10 Apr	Bandung, ID	USD 3,450
API 936 - Refractory Material Design, Application, Installation and Inspection	6 - 10 Apr	Kuala Lumpur, MY	USD 3,485
Certified Maintenance and Reliability Professional (CMRP)	6 - 10 Apr	Kuala Lumpur, MY	USD 3,595
Shell & Tube Heat Exchangers: Mechanical Design (ASME/TEMA), and Considering Operation & Maintenance	6 - 10 Apr	Kuala Lumpur, MY	USD 3,450
API 936 - Refractory Material Design, Application and Inspection	13 - 17 Apr	Bandung, ID	USD 3,485
ASME Section VIII Division 1 & 2 - Pressure Vessel Series	13 - 17 Apr	Bandung, ID	USD 3,450
API 653 - Tank Inspection, Repair, Alteration and Reconstruction	20 - 24 Apr	Kuala Lumpur, MY	USD 3,450
API 571 - Damage Mechanisms Affecting Fixed Equipment in the Refining Industry	4 - 8 May	Kuala Lumpur, MY	USD 3,450
ASME B31.3 - Process Piping Code Design Requirements	4 - 8 May	Bandung, ID	USD 3,450
Certified Maintenance and Reliability Professional (CMRP)	4 - 8 May	Bandung, ID	USD 3,595
Root Cause Analysis	5 - 8 May	Kuala Lumpur, MY	USD 3,295
Root Cause Analysis	11 - 14 May	Bangkok, TH	USD 3,295
Maintenance Planning and Scheduling	11 - 15 May	Kuala Lumpur, MY	USD 3,595

PetroSync's Portfolio

Since 2014-2025, PetroSync conducted more than 700 sessions Training with more than 6100 participants attended. We accumulated all participant's feedback scores, on average we have received excellent feedback with score 8.4 out of 10 (10 represents an excellent score). We also received 4.9 stars on Google out of 828 reviews. PetroSync training has proven successfully helped many clients to upgrade their skills and knowledge. Here are a sample of the participant's feedback, photo groups and reviews.

Masterclass on Carbon Capture & Storage (CCS)

22nd - 24th September 2025 at Kuala Lumpur, Malaysia

Average Feedback Score from 11 Participants : **9.2** out of 10

"By participating the Masterclass on CCS by Mr. Richard Worden, now I understand the fundamentals needed to work in an upcoming CCS project. Thanks for the excellent lecture & teaching materials from Mr. Richard Worden. Thank you Jessica for arranging the class."

Certified Maintenance and Reliability Professional (CMRP)

14th - 18th July 2025 at Kuala Lumpur, Malaysia

Average Feedback Score from 18 Participants : **8.6** out of 10

"PetroSync has been proactive in following up to ensure I could attend this training at my preferred time. The facility chosen with the expert trainer really get a good tone for us to follow through this training smoothly."

Upstream Petroleum Economics, Risk and Fiscal Analysis

26th - 28th November 2024 at Kuala Lumpur, Malaysia

Average Feedback Score from 25 Participants : **8.3** out of 10

"An excellent training that enhanced my understanding of petroleum economics. The course practical applications with real world insights. Highly recommended for professionals seeking to strengthen their expertise in this field."

4.9 of 5 Rating on Google Reviews

★★★★★ 2 months ago

I recently completed the ASME B31.3 course with Petrosync Institute, and I was truly impressed by the quality of the training. The course content was rich in technical knowledge yet presented in a way that was clear and easy to understand. A special thanks to the instructor, Mr. Mandar, whose deep expertise and mature teaching approach made the learning experience even more valuable. His ability to explain complex concepts with clarity made a big difference.
Highly recommended for anyone looking to strengthen their understanding of piping design and engineering standards!

"The training provided by Petrosync was well-structured, insightful, and professionally delivered. The content was highly relevant to current industry needs, and the trainer demonstrated deep technical knowledge. I appreciate the practical examples and interactive approach. Highly recommended for engineering professionals seeking continuous development."
